

# Rothwell & Desborough Healthcare Group

## Why you should have your flu vaccination at the surgery

We are now offering flu injections at the surgery and some patients are at risk of complications if you they get flu.

If it has been recommended by the doctors and health professionals that it would be beneficial for you to have the injection we would like to invite you along to attend one of our clinics

**We have some Saturday morning and weekday evening appointments available. Please call to book an appointment as soon as possible.**

**Rothwell – 01536 211277**

**Desborough – 01536 760345**

The reasons to come to the surgery rather than the chemists are as follows:

- Safe, clean and clinical environment
- Staff are fully qualified
- Staff receive annual vaccination training
- Full access to your medical records
- Your flu vaccination will be added to your medical records so they are up to date
- Emergency equipment and drugs available on site
- Income received from providing vaccinations is reinvested into patient care

**For further information on flu vaccinations follow this link:**
