Dear Patient

Important information

As part of a review of prescribing to improve safety and outcomes, we have reviewed all patients prescribed oral contraceptives.

In order to ensure that all necessary medical checks are completed prior to issuing your contraceptive medication, we have decided to remove all oral contraceptives from repeat medication lists.

Therefore, prior to starting the last month of your contraceptive pill, we would ask you to request your contraceptive pill. You will be asked to make an appointment if your annual review is due. If your appointment is not due, a further 6 months of your pill will be issued until your annual review.

At each annual review you will then be issued with 12 months of your contraceptive medication if there are no problems.

Should you have any queries or concerns about this change please do not hesitate to contact us.

Yours sincerely,

Rothwell & Desborough Healthcare Group
