Outpatient Blood Tests

Important Information

What's changing?

The hospital has changed to a new digital system for requesting Pathology tests. This means you will no longer be given a purple paper request form for your blood tests. Your blood test request information will be sent electronically to the Outpatient Phlebotomy Teams.

What does this mean for you?

If your clinician has requested a blood test, you will be required to pre-book an appointment to attend one of the Outpatient Phlebotomy locations.

Don't forget to book your blood test as soon as possible to prevent any delays.

How do I book a blood test?

Please book online, if you can. Further information on how to book can be found on the Kettering General Hospital website by using this QR code, by searching Kettering blood test or typing in <https://www.kgh.nhs.uk/phlebotomy-department-blood-tests/>

The on-line service is available 24 hours a day, 7 days a week, and is a live system. It is frequently updated as new appointments are released and when appointments are cancelled.

If you are unable to book online.

- For an adult blood test, please telephone 01536 494411 between 8am and 4pm, Monday to Friday (excluding bank holidays).
- For a children's blood test, please telephone 01536 492694 between 8am and 4pm, Monday to Friday (excluding bank holidays).

Please bear in mind that telephone booking services can get extremely busy.
